Bonanza for Oxford Boy Scouts. Through the generosity of Mr. L. C. Bates of West Paris, it will be possible for the Boy Scouts of Oxford County to have an ideal location for a summer Mr. Bates has bought a tract of land

It is hoped that a very large number of Boy Scouts will be able to enjoy the use of this play ground during the coming season, and plans are now being formed for that purpose. While there is a two story house on

and everything done for the pleasure and profit of the boys that can be affordingly fortunate to have this opportunity

It is to be hoped that others will folfreely for this purpose, and become acquainted with the work of the Boy Scouts and what they really are. Great Demand for P. N. Practical Front Corset

There are many reasons why P. N. Practical Front Corsets are different from other corsets that lace in the front, but there is an outstanding feature. It is the location of the front clasp coming directly in the center of the body. It puts the front closing of the corset exactly where it should be, directly in the front, in the same position thatit is found in back lace corsets.

At a glance you appreciate this feature. No longer will you have to suffer the loss of not being able to wear front lace corsets because you can't stand the pressure of the front clasp under the bust. P. N. Practical Front Corsets have solved this difficulty for you. A cleverly arranged inner elastic vest combined with the eatures of the clasp in the center will jopen for you a new era in your corset wearing. P. N. Practical Front Corsets will give you that combination of comfort plus style that you have always wanted.

The price is \$5.00, but worth far more than this, Try a pair and you will surely be convinced.

Costume Designing.

With fashion constantly changing, it is a problem to secure a foundation upon which clothing may be designed. Some say, "Design regardless of the changes," but that cannot be done successfully. Most of us are not sufficiently attractive or interesting to wear clothes that are ter adapt our individual ideas to the dic-There are fundamental reasons for change in fashions. Fashions change country and the spirit of the age. This fact may be seen by a study of the history of costumes of the past centuries. In early centuries when little change ccurred in manner of living even in undreds of years, we find fashions lastg for the same hundreds of years. Our own recent times in contrast show apid changes, progress in inventions ind manner of living and travel, the

ntermingling with other peoples of the world, and at the present the after war conditions. Along with these changes have come the rapid changes in fashions which most of us have found it difficult to keep up with. Besides these natural causes for changes in fashion, the manufacturer, because of his desire to sell his goods, sets up an artificial influence by adver-

Against these too rapid changes, there have been attempts at reform. Some have urged standardized dress as a solution to the problem, but women have not been willing to adopt this sort of dress, It seems that education in the fundamental principles of design and their application to costume would do a great eal; that we might strive more for beauty than for change, and that we might be able to adapt our individual ideas to the fashion and so modify if

ertising and monopoly.

The designing or selecting of costumes which are becoming, suitable and artistic, and at the same time fashionable, is task every woman or girl must perform, so the subject of costume designng should be interesting to all of us, as well as to the few who make art a ecial study.

Buttermilk for the Complexion. I made a call on a very pretty young riend the other day, and was moved to comment on the exquisite whiteness of her complexion. I begged her to tell me what particular face-bleach or cosmetic or wash she had been using. For minute she hesitated, and then, with a pewitching little pout, she said: "It is just buttermilk. Mamma told

ne about it," she went on to explain, "and her old colored nurse told her years ago down in Kentucky, when papa used to come and see her. And so the other day, when I was worrying over the freckles and sunburn on my face, she bethought herself of that old remedy and advised me to try it. I did so, and behold the result!" "Is there any particular way to apply

"Just wash your face well with water, and then take a silk sponge and pat it on all over your face and neck. Then when you get up in the morning wash it in clear water, and then in some more of the buttermilk, and dry your face thoroughly with a crash towel. You can get your milkman to bring you in a pint or so every morning, and you will find it a cheap as well as a perfect cosmetic."

Plants That Grow in North Windows. Ferns and begonias, Chinese primroses, callas, primula obconica, asparagus sprenguni, and asparagus splumosus manus will flourish finely in a large window which faces northeast. So will German ivy (Senecio) and English ivy, f you want some vines to train about the upper portion of the window. Plants having richly colored flowers could require more sunshine, but bego-

Selected Recipes.

ORANGE PUDDING. Beat the yolks of four eggs slightly, add two-thirds of a cup of sugar, the juice of one orange, grated rind of one quarter of it, also the juice of one lemon. Cook in a double boiler until thick, then beat in the whites of the eggs beaten stiff; cook a couple of minutes. The cream can be served in sherbet cups lined with lady fingers, or, if desired, two teaspoonfuls of dissolved gelatine may be added and the whole poured into a mold. This makes a delicate, delicious

lessert, and an ideal one for the invalid's

CHOCOLATE TAPIOCA. Wash a cupful of tapioca, cover with a pint and a half of water and soak for wo hours. Put four ounces of chocolate in a double boiler and when melted add a half cupful of sugar. Cook until the tapioca is transparent, stirring often, when done remove and flavor with vanilla. Serve with sugar and cream. A sprinkling of nuts or bits of jelly over the top for a garnish adds to the appear-

ance of either a tapioca or sago pudding Line a plate with nice crust and fill with cooked and stoned prunes, and enough juice to make it moist. Cream together butter size of an egg, two table spoons of sugar, two tablespoons breadcrumbs, two egg yolks beaten, two egg whites beaten stiffly—spread over the prunes and bake in a moderate oven.

EFFIE'S DARK CAKE. This rule for eggless cake, sent in by I. F. L., has been well tested: One cup sugar and one-half cup butter resmed together; one teaspoon soda issolved in one cup sour milk, two cups lour, one cup raisins, and one teaspoor each of cloves and cinnamon. If desired, add nutmeg. Bake in a moderate oven. This keeps well without growing dry.

COCOA FUDGE. One-half cup milk, 3 level tablespoon-uls butter, 2 1-2 cups powdered sugar, teaspoonful vanilla.

JOHNNYCAKE. One cup cornmeal, 1 cup flour, 1-2 cup sugar, 1 egg, 1 teaspoon melted butter and two teaspoons baking powder. Mix with sweet milk thin enough to pour.

PARSNIP CHOWDER. Cut up and fry out 1.3 cup of fat salt pork. Add one onion chopped and stir intil onion is browned. Add 1 1-2 cups f parsuips cut in cubes. Salt and peper to taste. Cover with water and coo antil vegetables are soft, then add 1. pint of milk, 1 tablespoon of butter, 1 cup of cracker crumbs and 2 teaspoonfuls of parsley chopped fine. Serve hot.
